

Damon Herbs

We provide high quality and healthy dried herbs, flowers, and fruits for you

We live in a country with a diverse climate where a variety of crops are grown throughout the year. Our company have direct access to the best producers of dried herbs, flowers, fruits and we are able provide high-quality products at reasonable prices to our global customers in all seasons.

About us

The Damon company is active in the fields of provide and export of herbal products , dried herbs and medical plants for the use in various industries. We have focused mainly on the dried orange blossoms , rosebuds, safflowers, violets, and barberry. Iran has a high plant diversity due to its special climate and four seasons weather . For this reason, Iran is one of the biggest and most important exporters of herbal products and medicinal plants in the world. Therefore, we have direct access to the final products and can present these products to various countries with superior quality and competitive prices. Generally, the Iranian products are not expensive and their quality is acceptable by many countries.

Customer services are one of the main business plans of our company and for this reason, all our effort is to gain customer satisfaction and create a satisfactory shopping experience for our dear customers.

Vision

If we look at the global statistics, we could understand that the acceptance of herbal products and medical plants is increasing constantly and the share of export of these products is increasing drastically.

The diversity of this fields has inspired us to step forward in the context of production and supply of a portion of the needs and necessary raw materials for various industries. The attention to environmental issues has led us to the contexts that are in line with the intellectual and work policies of our working team.

Our goal is to use the herbal plants as a natural resource for various uses in industries like food products, cosmetics, sanitary, medical products, etc so that the use of synthetic materials would be decreased. Production, supply, and export of these products are one of the main goals of this company due to their use in various industries and traditional medicine so we could provide these plants with superior quality and new services for the consumer all around the world. This company intends to expand its diversity of products in line with its future works and take bigger steps in the export of these products by attracting new customers from the regional and trans-regional countries.

STANDARDS and QUALITY

This company guarantees that our products are obtained from fresh and hand-picked plants through contracts with the producers and farmers of herbal plants. Being organic is one of the most important specifications of our products because no toxins or chemical and synthetic materials have been used during their production. Besides, due to our belief in the purity of the available products, no additives or dyes have been used in our products. It is worth noting that, according to the Coronavirus pandemic and the obligation to observe hygienic principles, all the hygienic and sanitary measures are considered during planting, growing, and harvesting and also during packing and product delivery. Our supervisors and experts have the necessary supervision through all the steps so the final product would be delivered to the end-user with supreme quality.
